Sir:

The following amendment and request for reconsideration is being submitted in response to the Examiner's office action dated 10/2/98 for the above-identified continuation patent application. In this office action claims 1 and 4-28, which are all of the pending claims, have been rejected as last amended in the response filed after final rejection in the parent application, which amendment was entered upon the filing of this continuation application under the previous Rule 1.62 File Wrapper Continuation practice.

Appended to this response is a petition for a one month extension of time and a check for the required petition fee. If for any reason this petition and fee should become separated from this response, the Commissioner is respectfully requested to consider this a petition for any extension of time that is required to maintain the pendency of this patent application. In this event the Commissioner is also authorized to charge deposit account no. 16-1350 for any fee that may be required to maintain the pendency of this patent application.
